MEMORANDUM

TO: Dr. Katherine Dockweiler, President
Nevada State Board of Education

FROM: Megan Peterson, Deputy Superintendent, Student Investment Division *mp*

DATE: September 8, 2025

SUBJECT: Report to the State Board of Education: Class Size Reduction Variances and Justifications, 4th Quarter Fiscal Year 2025 (April 1, 2025 - June 30, 2025)

Introduction

Nevada Revised Statute (NRS) 388.700 outlines requirements intended for the reduction of student to teacher ratios for kindergarten through third grade through the development of annual Class Size Reduction (CSR) plans developed at the district level, and various quarterly, annual, and biennial reporting requirements; charter schools are excluded from these requirements. The Nevada Department of Education (NDE) submits a report on a quarterly basis to the Nevada State Board of Education (State Board) summarizing CSR efforts and the quarterly variance requests for approval. Per NRS 388.700(5), the State Board must then submit a report to the Interim Finance Committee on each variance requested by a school district, by school and justification.

School districts are required to report on a quarterly basis the average daily enrollment of pupils and the number of licensed teachers designated to teach on a full-time basis in classes where core curriculum is taught, broken down by school, grade level, and classroom configuration. Per NRS 388.700, only licensed personnel teaching core curriculum classes may be counted for the class size ratio calculation; teachers of art, music, physical education, special education, librarians, and specialists may not be included for calculation purposes.

Each school that exceeds their target pupil-teacher ratio must request a variance for the next quarter of the school year, which the State Board may approve for good cause. Good cause may include, but is not limited to, facility limitations, difficulty hiring, or funding limitations. Each variance must include the justification for the variance and a plan of action specific to that school to reduce the class size ratio, per NRS 388.700. CSR reporting is submitted to NDE quarterly on November 1, February 1, May 1, and August 1.

With the implementation of the Pupil-Centered Funding Plan, funds previously identified for CSR were rolled into the statewide base per-pupil funding amount, which allows districts flexibility in the allocation of funding to meet the needs of their students and school communities.

Class size ratios under the regular and alternative plan are as follows:

Regular Plan			
<i>As prescribed in NRS 388.700(1)</i>			
Kindergarten	First Grade	Second Grade	Third Grade
16:1	16:1	16:1	18:1
Alternative Plan			
<i>As prescribed in NRS 388.720(2)</i>			
<i>Available for counties with populations less than 100,000</i>			
<i>Fifth-sixth grades within elementary schools only</i>			
Kindergarten	First-Third Grades	Fourth Grade	Fifth-Sixth Grades
16:1	22:1	25:1	25:1

Enrollment

According to the Fiscal Year 2025 (FY25) Quarter 4 (Q4) average daily enrollment (ADE) report, enrollment decreased by 1,171 students from FY25 Q3 to FY25 Q4, for a total of 464,813 students statewide. The following charts of district and charter enrollment illustrate how this total enrollment is divided across district schools and charter schools, including the declining enrollment of districts and increasing enrollment within charter schools.

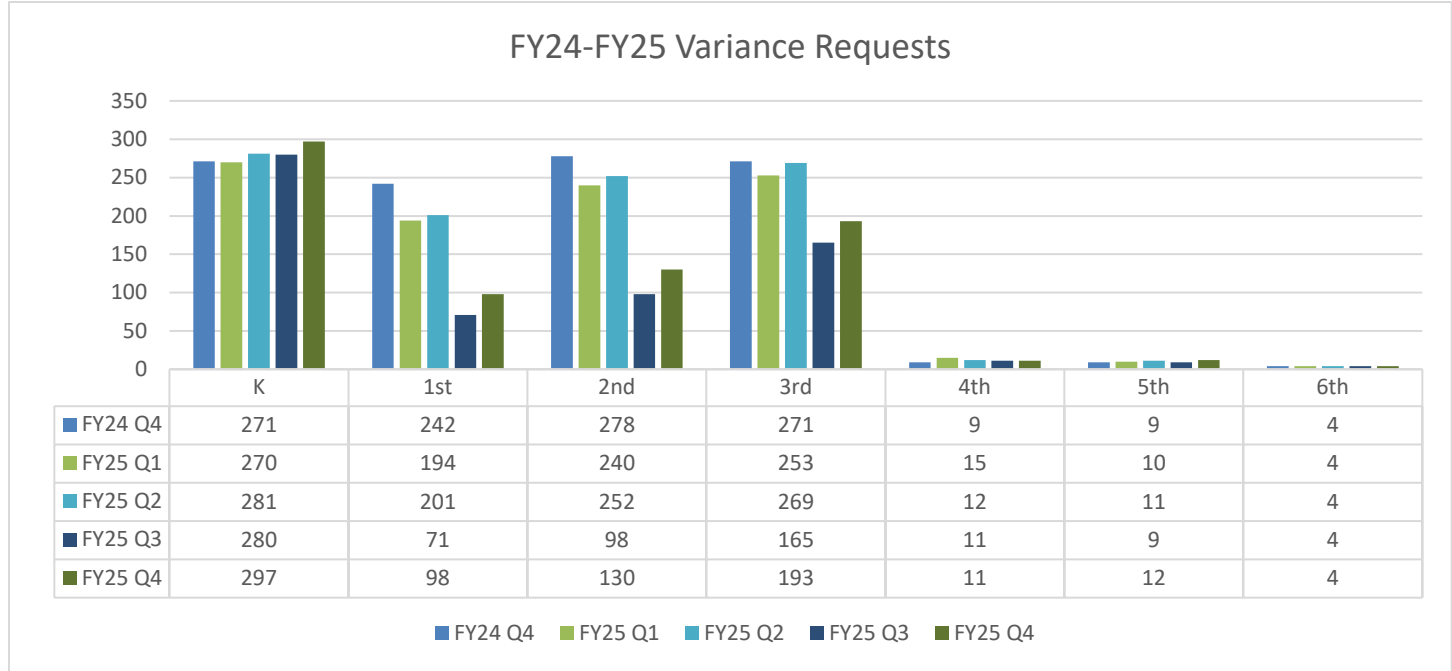

It is important to note that CSR reporting has limitations (i.e., charter schools do not report, nor all district students in grades 4-6) and should not be taken to reflect the ratios for all students statewide. Of the total statewide enrollment, approximately 28%, or 130,526 students are in kindergarten through third grade. More specifically, district enrollment for kindergarten through third grade was 107,214 students per Q4 ADE reporting or 82% of statewide kindergarten through third grade students, with only 107,105 students accounted for in the Q4 CSR report. Based on the Q4 CSR reporting, there was an educator count of 5,301 district teachers for kindergarten through third grade, with an average class size ratio of 20:1 in district K-3 classrooms.

Districts on alternative plans also submit enrollment and educator counts for grades 4-6, however, only if those grades are within an elementary school. Because this data is not collected statewide for this report, nor inclusive of all grades 4-6 within a given district, the averages may not be meaningful reflections of ratios or the barriers to target ratios across the state. Per the Q4 ADE reporting, statewide enrollment for grades 4-6 is 106,392 students. District enrollment for those grades is 88,202 students. Within the Q4 CSR report, 8,451 students were reported for enrollment in grades 4-6 within an elementary school, along with 395 educators for an average class size ratio of 21:1.

Variance Requests

There were 745 variance requests for Q4 of FY25, with the largest number in kindergarten and a similarly high number in the third grade respectively. Compared to FY25 Q3, which had 638 variances, there were 107 more variances for Q4, increasing most notably by 32 for second grade and by 28 for third grade.

There was a decrease of 232 district educators for grades K-3 from Q3 to Q4. Of the 382 reporting elementary schools, 339 requested one or more variances – approximately 89% of all reporting elementary schools across Nevada.

Districts may report one or more reasons for their variance request including: facility limitations, difficulty hiring, funding limitations, or other. The representative causes for each variance remain consistent across quarters, with the overwhelming majority of those variances citing simultaneous justifications for funding limitations, difficulty hiring, and facility limitations. Difficulty hiring is reflective of the increase in teacher shortages due to retirement and attrition, in addition to funding limitations, most often representing insufficient funds to build classrooms, hiring competitively, and/or generally expand programs, linking closely with cited issues of facility limitations, which typically reflect a lack of space to provide physical classrooms.

When reviewing variances, it is important to note that 552 of those variances qualified as renewals, approximately 74% of all variance requests. 67 variances represented classrooms that had a previous variance but had class size ratios that changed by more than 1 integer, requiring submission of an updated variance justification. 126 variances were for classrooms that had previously not had a variance, accounting for approximately 17% of all variances.

Count of Variances by Grade								
District	K	1	2	3	4	5	6	Total
Carson	4	0	2	0	0	1	0	7
Churchill	1	0	0	0	0	0	0	4
Clark	201	43	66	120	0	0	0	430
Douglas	6	5	4	2	3	1	0	21
Elko	7	2	1	3	0	1	0	14
Esmeralda*	0	0	0	0	0	0	0	0
Eureka	1	0	0	0	0	0	0	1
Humboldt	3	1	2	1	1	0	0	8
Lander	0	0	0	0	0	0	0	0
Lincoln	2	2	1	2	4	4	3	18
Lyon	5	2	5	4	0	1	1	18
Mineral	0	0	0	0	0	0	0	0
Nye	6	1	3	5	1	1	0	17
Pershing	1	0	0	0	2	2	0	5
Storey	1	0	0	1	0	1	0	3
Washoe	57	41	45	55	0	0	0	198
White Pine	2	1	1	0	0	0	0	4
Grand Total	297	98	130	193	11	12	4	745

**Please note that Esmeralda County School District (CSD), due its small size, has exclusively multi-grade classrooms. The calculation for these classrooms may sometimes create the appearance of a disproportionate ratio, despite a low enrollment. For greater details around Esmeralda CSD's variance requests and their actual class sizes, please see their section later in this report.*

District Data

For every district, each reporting elementary school has a table with relevant statistical data and the class size ratios for each reporting grade. Specifically, the following 2023-24 school year data is included:

Index Score

Under the Nevada School Performance Framework (NSPF) each public school is issued an annual index score and star rating based on the school's performance on various measures over the prior school year. An index score for each school has been calculated based on the indicators/measures outlined in the [NSPF Manual](#) and provided under "Index Score" representing the total number of points scored across all measures for the school.

Elementary schools are rated based on:

- Academic Achievement, 25 points across multiple measures including the Read by Grade 3 (RBG3) measure and the pooled proficiency measure.
- Growth, 35 points across multiple measures.
- English Language Proficiency, 10 points, based on the percentage of English learners meeting WIDA Adequate Growth Percentiles (AGP) measures.
- Closing Opportunity Gaps, 20 points across multiple measures.
- Student Engagement, 10 points, based on the rate of chronic absenteeism.

English Learners

The percentage of English Learners (EL) within the school has been provided; please note that these numbers represent the total number of students with an English learner designation in the school, and by extension represents the number of students who would be subject to the English Language Proficiency WIDA measure within the Index Score but does not represent the proficiency rating under this measure.

English Language Arts (ELA) Proficiency

The ELA Proficiency measure is the percentage proficient in English language arts based on criterion-referenced exams. Under the Index Score, this proficiency is pooled along with math and science proficiencies to make up the pooled proficiency measures. However, for the purpose of contextualizing class size reduction data, the ELA Proficiency measures have been pulled out as an independent factor.

Rate of Chronic Absenteeism

Students who are absent for 10% or more of their enrolled school days are considered chronically absent. If a school has a 20% rate of chronic absenteeism, this means that 20% of students were absent for 10% or more of their enrolled school days.

Class Size Ratios

In FY25 Q4, 10 districts exceeded the target class size ratio for one or more grades at the district level. While many districts exceeded the target ratio for kindergarten, these were ratios that districts anticipated given their enrollment, facilities, and staffing capabilities.

District Class Size Ratios								
District	Plan	K	1	2	3	4	5	6
Carson	Alternative	19	18	21	21	23	23	*
Churchill	Alternative	18	18	20	22	22	21	*

Carson City School District

Carson City School District (Carson City SD) implemented an alternative class size reduction program for FY25. Carson City SD requested 7 variances, four for kindergarten, two for second grade, and one for fifth grade, citing facility and funding limitations.

District Overview

Carson City SD	K	1	2	3	4	5
Highest class size ratio	23	20	23	22	25	26
Lowest class size ratio	14	16	18	18	18	21
Average class size ratio	19	18	21	21	23	23

Details by School

School Name	K	1	2	3	4	5

Mark Twain	27.5	17.4%	35.8%	12.3%
Seeliger Elementary	59.5	15.4%	49.2%	15.2%

Churchill County School District

Churchill County School District (Churchill CSD) implemented an alternative class size reduction program for FY25. Due to the smaller size of Churchill CSD, kindergarten is only offered at one school: Lahontan Elementary School (ES). Churchill CSD requested one variance for kindergarten citing difficulty hiring.

Detail by School

School Name	K	1	2	3	4	5
EC Best Elementary	*	*	20	22	*	*
Lahontan Elementary	18	18	*	*	*	*
Numa Elementary	*	*	*	*	22	21

School Statistics

School Name	Index Score	English Learners	ELA Proficient	Chronically Absent
EC Best Elementary	43.3	7.5%	28.6%	13.7%
Lahontan Elementary	55	6.3%	*	18.5%
Numa Elementary	26.8	7.3%	35.6%	15.8%

Clark County School District

Clark County School District (CCSD) implemented a regular class size reduction program for FY25. CCSD represents approximately 72% of district enrollment, with 236 elementary schools. CCSD requested 430 variances, across 221 schools – 94% of schools – representing 58% of all variance requests: 201 for kindergarten, 43 for first grade, 66 for second grade, and 120 for third grade, citing difficulty hiring, facility limitations, and funding limitations.

District Overview

CCSD	K	1	2	3
Highest class size ratio	79	63	52	153
Lowest class size ratio	1	6	1	2
Average class size ratio	21	19	20	24

Esmeralda County School District

Esmeralda County School District (Esmeralda CSD) is among the smallest by population and had no variance requests. It is important to note that Dyer ES has a single combined classroom. When a single teacher is in a combined classroom, the student to teacher ratio is calculated in percentages to reflect what the equivalent ratio would be in a single classroom. While the ratios would seem to indicate students in excess of the ratio, calculations using ADE indicate that no students in Esmeralda CSD are exceeding ratios.

Detail by School
