

Optional Resources from the American School Counselor Association for NEPF Evidence Sources

The work group that developed and refined the NEPF School Counselor Framework has recommended the use of the following national ASCA tools as pieces of mandatory and/or confirmatory evidence. The ASCA tools are available here: <https://schoolcounselor.org/school-counselors/asca-national-model/templates-and-resources> under ASCA National Model templates. Please note that the Nevada Department of Education has not prescribed or mandated that School Counselors use the ASCA tools; the tools at the link above are optional resources available to all School Counselors and may be used to serve as mandatory/confirmatory evidence, if desired.
