

Communities In Schools of Nevada

Proudly serving 108 Title I and high-needs schools in the Clark, Elko, Humboldt and Washoe County school districts

Serving Students K-12 in 1 in 4 Title I & High-Needs Schools Across Nevada

- CIS Nevada was founded in 2004 with one elementary school in CCSD. **Almost two decades later, and hundreds of thousands of students served, we have a statewide track record and network of relationships.**
- **Nevada is the fifth-largest office of the nation's leading provider of Integrated Student Supports** operating in 26 states and the District of Columbia. All funds raised stay in Nevada.

Serving Students K-12 in 1 in 4 Title I & High-Needs Schools Across Nevada

- **Currently in 108 elementary, middle and high schools, with 200+ employees serving over 100,000 students (Tier I) and providing case management to > 7,000 students (Tier II and III).**
- **Public-private funding model with 60% of the program funded through government grants, appropriations and school budgets and 40% privately fundraised from corporations, competitive grants, and philanthropists.**
- **High demand for services with 15-20 school on waiting list at any given time. Three affiliates serving rural and urban communities:**
 - Southern Nevada — Clark County
 - Western Nevada — Washoe County
 - Northeastern Nevada — Elko & Humboldt County

What is Integrated Student Support (ISS)?

Evidence-Based, Equity Focused, Data Driven & Accountability Oriented

- **Data Driven.** CIS boosts the Attendance, Behavior and Course Performance (the ABC's) students from low-income households—who are disproportionately students of color—in 108 Title I schools across schools in Clark, Elko, Humboldt & Washoe counties. **Program data is independently verified & reported publicly.**
- **Equity-Focused.** CIS can support the State in **measuring the effectiveness of education spending** by implementing & reporting on investments in our program from appropriate weights (e.g. at-risk & English Language Learners) in the PCFF. Our model of **Integrated Student Supports (ISS)**, and the ABC collaborative needs assessment and support planning across the school campus, are **essential to reach the goals established by *Acing Accountability* and AB 400 & SB 98.**

Evidence-Based, Equity Focused, Data Driven & Accountability Oriented

- **Evidence-Based.** The model of Integrated Student Supports meets all four tiers of evidence—levels 1, 2, 3 and 4—as required by the federal **Every Student Succeeds Act (ESSA)**. CIS is the only registered provider of evidence-based ISS with the Nevada Department of Education, which included independent verification of our evidence-base and evaluations by researchers at UNLV.
- **Accountability Oriented.** Several national independent evaluations of the efficacy of the CIS model of Integrated Student Supports — both schoolwide and individual student outcomes (case management) — have been conducted with the last in 2017. **CIS of Nevada goes through a rigorous annual data approval process and every three years goes through reaccreditation to ensure fidelity of implementation with the National Office.**
