Dr. René Cantú  
Katie Coombs  
Dr. Katherine Dockweiler  
Tamara Hudson  
Tim Hughes  
Mark Newburn, Vice President  
Felicia Ortiz, President  
Malia Poblete  
Dr. Summer Stephens  
Mike Walker

**Nevada Department of Education**

Jhone M. Ebert  
Superintendent of Public Instruction

Craig Statucki  
Interim Deputy Superintendent for Educator Effectiveness and Family Engagement

Cindi Chang  
Interim Director for the Office of Career Readiness, Adult Learning, and Education Options

**Vision**

*All Nevada students are equipped and feel empowered to attain their vision of success*

**Mission**

*To improve student achievement and educator effectiveness by ensuring opportunities, facilitating learning, and promoting excellence*

## Introduction

The Nevada Career and Technical Education (CTE) Curriculum Frameworks are a resource for Nevada's public schools and charter schools to design, implement, and assess their CTE programs and curriculum. The content standards identified in this document are listed as a model for the development of local district programs and curriculum. They represent rigorous and relevant expectations for student performance, knowledge, and skill attainment which have been validated by industry representatives.

This curriculum framework ensures the following:

- CTE course(s) and course sequence teaches the knowledge and skills required by industry through applied learning methodology and, where appropriate, work-based learning experiences that prepare students for careers in high-wage, high-skill, and/or in-demand fields. Regional and state economic development priorities shall play an important role in determining program approval. Some courses also provide instruction focused on personal development.
- CTE course(s) and course sequence includes leadership and employability skills as an integral part of the curriculum.
- CTE course(s) and course sequence is part of a rigorous program of study and includes sufficient technical challenge to meet state and/or industry-standards.

---

**Nevada Department of Education  
Curriculum Framework for  
Aviation Technology**

**Program Information**

<b>Program Title:</b>	<b>Aviation Technology</b>
<b>State Skill Standards:</b>	<b>Aviation Technology</b>
<b>Standards Reference Code:</b>	<b>AVIT</b>
<b>Career Cluster:</b>	<b>Transportation, Distribution, and Logistics</b>
<b>Career Pathway:</b>	<b>Transportation Operations</b>
<b>Program Length:</b>	<b>2-year, completed sequentially</b>
<b>Program Assessments:</b>	<b>TBD</b>
	<b>Workplace Readiness Skills</b>
<b>CTSO:</b>	<b>SkillsUSA</b>
<b>Grade Level:</b>	<b>9-12</b>
<b>Industry Certifications:</b>	<b>See Nevada’s Approved Certification Listing</b>

**Program Purpose**

The purpose of this program is to prepare students for postsecondary education and employment in the Aviation Technology industry.

The program includes the following state standards:

- Nevada CTE Skill Standards: Aviation Technology
- Employability Skills for Career Readiness
- Nevada Academic Content Standards (alignment shown in the Nevada CTE Skill Standards):
  - English Language Arts
  - Mathematics
  - Science
- Common Career Technical Core (alignment shown in the Nevada CTE Skill Standards)

**Career Clusters**

The National Career Clusters® Framework provides a vital structure for organizing and delivering quality CTE programs through learning and comprehensive programs of study (POS). In total, there are 16 Career Clusters in the National Career Clusters Framework, representing more than 79 Career Pathways to help students navigate their way to greater success in college and career. As an organizing tool for curriculum design and instruction, Career Clusters provide the essential knowledge and skills for the 16 Career Clusters and their Career Pathways. <sup>1 and 2</sup>

### Program of Study

The program of study illustrates the sequence of academic and career and technical education coursework that is necessary for the student to successfully transition into postsecondary educational opportunities and employment in their chosen career path (NAC 389.803).

### Program Structure

The core course sequencing, with the complementary courses provided in the following table, serves as a guide to schools for their programs of study. Each course is listed in the order in which it should be taught. Complete program sequences are essential for the successful delivery of all state standards in each program area. A program does not have to utilize the complementary courses for students to complete their program of study.

### Aviation Technology

#### Required Core Course Sequence (R) with Complementary Courses (C)

Required/ Complementary	Course Title	Abbreviated Name	CIP Code	SCED Subject Area	SCED Course Identifier	SCED Course Level	SCED Unit Credit	SCED Course Sequence	SCED Course Number
R	Aviation Technology I	AVIATION TECH I	49.0101	20	053	G	1.00	12	20053G1.0012
R	Aviation Technology II	AVIATION TECH II	49.0101	20	053	G	1.00	22	20053G1.0022
C	Aviation Technology Advanced Studies	AVIATION TECH AS	49.0101	20	053	E	1.00	11	20053E1.0011
C	CTE Work Experience - Transportation, Distribution, and Logistics	WORK EXPER TRANS	99.0016	20	998	G	1.00	11	20998G1.0011
C	Industry Recognized Credential – Aviation Technology	IRC AVIATION TECH	49.0101	20	999	E	1.00	11	20999E1.0011

**State Skill Standards**

The state skill standards are designed to clearly state what the student should know and be able to do upon completion of an advanced high school career and technical education (CTE) program. The standards are designed for the student to complete all standards through their completion of a program of study. The standards are designed to prepare the student for the end-of-program technical assessment directly aligned to the standards (NAC 389.000 [1]).

**Employability Skills for Career Readiness Standards**

Employability skills have, for many years, been a recognizable component of the standards and curriculum in career and technical education programs. The twenty-one standards are organized into three areas: (1) Personal Qualities and People Skills, (2) Professional Knowledge and Skills, and (3) Technology Knowledge and Skills. The standards are designed to ensure students graduate high school properly prepared with skills employers prioritize as the most important. Instruction on all twenty-one standards must be part of each course of the CTE program (NAC 389.800 [1]).

**Curriculum Framework**

The Nevada CTE Curriculum Frameworks are organized utilizing the recommended course sequencing listed in the program of study and the CTE Course Catalog. The framework identifies the recommended content standards, performance standards, and performance indicators that should be taught in each course.

**Career and Technical Student Organizations (CTSOs)**

To further the development of leadership and technical skills, students must have opportunities to participate in one or more of the Career and Technical Student Organizations (CTSOs). CTSOs develop character, citizenship, and the technical, leadership and teamwork skills essential for the workforce and their further education. Their activities are considered a part of the instructional day when they are directly related to the competencies and objectives in the course (NAC 389.800 [3]).

**Workplace Readiness Skills Assessment**

The Workplace Readiness Skills Assessment has been developed to align with the Nevada CTE Employability Skills for Career Readiness Standards. This assessment provides a measurement of student employability skills attainment. Students who complete a program will be assessed on their skill attainment during the completion level course. Completion level courses are identified in the Program Structure table as SCED Course Level “G” and SCED Course Sequence 22 or 33 (NAC 389.800 [1]).

**End-of-Program Technical Assessment**

An end-of-program technical assessment may be implemented for those programs with current industry validated standards to align with the Nevada CTE Skill Standards for this program. This assessment provides a measurement of student technical skill attainment. Students who complete a program will be assessed on their skill attainment during the completion level course. Completion level courses are identified in the Program Structure table as SCED Course Level “G” and SCED Course Sequence 22 or 33 (NAC 389.800 [1]).

**Certificate of Skill Attainment**

Each student who completes a course of study must be awarded a certificate which states that they have attained specific skills in the industry being studied and meets the following criteria: A student must maintain a 3.0 grade point average in their approved course of study, pass the Workplace Readiness Skills Assessment, and pass the end-of-program technical assessment, if available (NAC 389.800 [4]).

**CTE Endorsement on a High School Diploma**

A student qualifies for a CTE endorsement on their high school diploma after successfully completing the following criteria: (1) completion of a CTE course of study in a program area, (2) completion of academic requirements governing receipt of a standard diploma, and (3) meet all requirements for the issuance of the Certificate of Skill Attainment (NAC 389.815).

**CTE College Credit**

CTE College Credit is awarded to students based on articulation agreements established by each college for the CTE program, where the colleges will determine the credit value of a full high school CTE program based on course alignment. An articulation agreement will be established for each CTE program designating the number of articulated credits each college will award to students who complete the program.

CTE College Credit is awarded to students who: (1) complete the CTE course sequence with a grade-point average of 3.0 or higher, (2) pass the state end-of-program technical assessment, if available, for the program of study, and (3) pass the Workplace Readiness Assessment for employability skills.

Pre-existing articulation agreements will be recognized until new agreements are established according to current state policy and the criteria shown above.

Please refer to the local high school's course catalog or contact the local high school counselor for more information (NAC 389.800 [3]).

**Academic Credit for CTE Coursework**

Career and technical education courses meet the credit requirements for high school graduation (1 unit of arts and humanities or career and technical education). Some career and technical education courses meet academic credit for high school graduation. Please refer to the local high school's course catalog or contact the local high school counselor for more information (NAC 389.672).

---

## Core Courses

### Recommended Student Performance Standards

#### Course Information

**Course Title:** Aviation Technology I  
**Abbreviated Name:** AVIATION TECH I  
**Credits:** 1  
**Prerequisite:** None  
**CTSO:** SkillsUSA

#### Course Description

This course is designed as an introduction to general aeronautics. It includes the study of the impact of aviation on society, physical mathematics, common and special tools and measuring devices, physics of flight, aerodynamics of flight, and analyzing aeronautical charts. It provides basic information on the principles, fundamentals, and technical procedures in the areas of aircraft, aerospace, and aviation professions. Students will learn the principles of flight and navigation, and the flight environment of an aerospace vehicle. The appropriate use of technology and industry-standard equipment is an integral part of this course.

#### Technical Standards

**CONTENT STANDARD 1.0: INTEGRATE CAREER AND TECHNICAL STUDENT ORGANIZATIONS (CTSOS)**

Performance Standard 1.1: Explore the History and Organization of CTSOs

*Performance Indicators:* 1.1.1-1.1.3

Performance Standard 1.2: Develop Leadership Skills

*Performance Indicators:* 1.2.1-1.2.6

Performance Standard 1.3: Participate in Community Service

*Performance Indicators:* 1.3.1-1.3.3

Performance Standard 1.4: Develop Professional and Career Skills

*Performance Indicators:* 1.4.1-1.4.5

Performance Standard 1.5: Understand the Relevance of Career and Technical Education (CTE)

*Performance Indicators:* 1.5.1-1.5.3

**CONTENT STANDARD 2.0: IDENTIFY LAB ORGANIZATION AND SAFETY PROCEDURES**

Performance Standard 2.1: Demonstrate General Safety Rules and Procedures

*Performance Indicators:* 2.1.1-2.1.11

**CONTENT STANDARD 3.0: ASSESS THE IMPACT OF AVIATION ON SOCIETY**

Performance Standard 3.1: Describe History of Aviation

*Performance Indicators:* 3.1.1-3.1.2

Performance Standard 3.2: Investigate Related Careers in Aviation

*Performance Indicators:* 3.2.1-3.2.3

Performance Standard 3.3: Interpret the Aviation Engineering Design Process

*Performance Indicators:* 3.3.1-3.3.3

**CONTENT STANDARD 4.0: INVESTIGATE MATERIAL PROPERTIES**

Performance Standard 4.1: Analyze Aircraft Structures

*Performance Indicators:* 4.1.1-4.1.8

Performance Standard 4.2: Demonstrate Knowledge of Measuring and Scaling Techniques for Aviation

*Performance Indicators:* 4.2.1-4.2.9

**CONTENT STANDARD 5.0: INTERPRET THE PHYSICS AND AERODYNAMICS OF FLIGHT**

Performance Standard 5.1: Analyze the Physics of Flight

*Performance Indicators:* 5.1.1-5.1.9

Performance Standard 5.2: Analyze the Aerodynamics of Flight

*Performance Indicators:* 5.2.1-5.2.9

**CONTENT STANDARD 6.0: ANALYZE THE FLIGHT ENVIRONMENT**

Performance Standard 6.1: Analyze Aeronautical Charts

*Performance Indicators:* 6.1.1-6.1.2

**Employability Skills for Career Readiness Standards**

**CONTENT STANDARD 1.0: DEMONSTRATE EMPLOYABILITY SKILLS FOR CAREER READINESS**

Performance Standard 1.1: Demonstrate Personal Qualities and People Skills

*Performance Indicators:* 1.1.1-1.1.7

Performance Standard 1.2: Demonstrate Professional Knowledge and Skills

*Performance Indicators:* 1.2.1-1.2.10

Performance Standard 1.3: Demonstrate Technology Knowledge and Skills

*Performance Indicators:* 1.3.1-1.3.4

**Alignment to the Nevada Academic Content Standards\***

**English Language Arts:** Language Standards  
Reading Standards for Literacy in Science and Technical Subjects  
Speaking and Listening Standards  
Writing Standards  
Writing Standards for Literacy in Science and Technical Subjects

**Mathematics:** Mathematical Practices  
Algebra  
Numbers and Quantity

**Science:** Science and Engineering Practices  
Engineering Design  
Physical Science

\*Refer to the Aviation Technology Standards for alignment by performance indicator.

---

**Course Information**

**Course Title:** Aviation Technology II  
**Abbreviated Name:** AVIATION TECH II  
**Credits:** 1  
**Prerequisite:** Aviation Tech I  
**Program Assessments:** TBD  
**Workplace Readiness Skills**  
**CTSO:** SkillsUSA

**Course Description**

This course is a continuation of Aviation Technology I. This course provides intermediate aviation technology students with an in-depth knowledge about the systems and structures found on today's aircraft. Students will become familiar with aircraft structural materials, coverings, electrical systems, hydraulics, computer systems, environmental systems, safety equipment, control systems, power plants, and avionics. Through the knowledge gained in studying aircraft systems and structures, students will learn the fundamentals to maintain and safely operate an aircraft. The appropriate use of technology and industry-standard equipment is an integral part of this course.

**Technical Standards****CONTENT STANDARD 1.0: INTEGRATE CAREER AND TECHNICAL STUDENT ORGANIZATIONS (CTSOS)**

Performance Standard 1.1: Explore the History and Organization of CTSOs

*Performance Indicators:* 1.1.1-1.1.3

Performance Standard 1.2: Develop Leadership Skills

*Performance Indicators:* 1.2.1-1.2.6

Performance Standard 1.3: Participate in Community Service

*Performance Indicators:* 1.3.1-1.3.3

Performance Standard 1.4: Develop Professional and Career Skills

*Performance Indicators:* 1.4.1-1.4.5

Performance Standard 1.5: Understand the Relevance of Career and Technical Education (CTE)

*Performance Indicators:* 1.5.1-1.5.3

**CONTENT STANDARD 3.0: ASSESS THE IMPACT OF AVIATION ON SOCIETY**

Performance Standard 3.4: Analyze Ethics in Aviation

*Performance Indicators:* 3.4.1-3.4.4

**CONTENT STANDARD 4.0: INVESTIGATE MATERIAL PROPERTIES**

Performance Standard 4.1: Analyze Aircraft Structures

*Performance Indicators:* 4.1.9-4.1.16

**CONTENT STANDARD 5.0: INTERPRET THE PHYSICS AND AERODYNAMICS OF FLIGHT**

Performance Standard 5.1: Analyze the Physics of Flight

*Performance Indicators:* 5.1.10

**CONTENT STANDARD 6.0: ANALYZE THE FLIGHT ENVIRONMENT**

Performance Standard 6.2: Identify and Explain the Airport Environment

*Performance Indicators:* 6.2.1-6.2.3

Performance Standard 6.3: Analyze Airspace and Communication Procedures

*Performance Indicators:* 6.3.1-6.3.6

**CONTENT STANDARD 7.0: ANALYZE THE AVIATION CERTIFICATION PROCESSES**

Performance Standard 7.1: Research Certification and Regulations

*Performance Indicators:* 7.1.1-7.1.8

**CONTENT STANDARD 8.0: ANALYZE AIRCRAFT SYSTEMS**

Performance Standard 8.1: Identify Aircraft Engine Types

*Performance Indicators:* 8.1.1-8.1.5

Performance Standard 8.2: Research Reciprocating Engine Systems

*Performance Indicators:* 8.2.1-8.2.8

Performance Standard 8.3: Explore Aircraft Propeller Systems

*Performance Indicators:* 8.3.1-8.3.4

Performance Standard 8.4: Analyze Aircraft Systems

*Performance Indicators:* 8.4.1-8.1.15

Performance Standard 8.5: Examine Electrical and Hydraulic Systems

*Performance Indicators:* 8.5.1-8.5.6

**CONTENT STANDARD 9.0: ANALYZE AIRCRAFT WEATHER**

Performance Standard 9.1: Analyze Weather and Weather Services

*Performance Indicators:* 9.1.1-9.1.15

**CONTENT STANDARD 10.0: ANALYZE FLIGHT NAVIGATION AND PHYSIOLOGY**

Performance Standard 10.1: Investigate Flight Navigation Requirements

*Performance Indicators:* 10.1.1-10.1.6

Performance Standard 10.2: Identify Flight Physiology Factors

*Performance Indicators:* 10.2.1-10.2.2

**Employability Skills for Career Readiness Standards**

**CONTENT STANDARD 1.0: DEMONSTRATE EMPLOYABILITY SKILLS FOR CAREER READINESS**

Performance Standard 1.1: Demonstrate Personal Qualities and People Skills

*Performance Indicators:* 1.1.1-1.1.7

Performance Standard 1.2: Demonstrate Professional Knowledge and Skills

*Performance Indicators:* 1.2.1-1.2.10

Performance Standard 1.3: Demonstrate Technology Knowledge and Skills

*Performance Indicators:* 1.3.1-1.3.4

**Alignment to the Nevada Academic Content Standards\***

## Complementary Courses

Programs that utilize the complementary courses can include the following:

- Advanced Studies course
- Lab course(s)
- CTE Work Experience course
- Industry-Recognized Credential course

### Course Information

**Course Title:** Aviation Technology Advanced Studies

**Abbreviated Name:** Aviation Tech AS

**Credits:** 1

**Prerequisite:** Completion of Aviation Technology Program of Study

**CTSO:** SkillsUSA

### Course Description

This course is offered to students who have achieved all content standards in a program and desire to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

### Technical Standards

Students have achieved all program content standards and will pursue advanced study through investigation and in-depth research.

### Employability Skills for Career Readiness Standards

Students have achieved all program content standards and will pursue advanced study through investigation and in-depth research.

### Sample Topics:

- Participate in individual/team competitions or capstone projects
- Investigate unmanned aerial vehicles
- Participation in an internship or job shadow opportunities
- Explore college and career opportunities

**Course Information**

**Course Title:** CTE Work Experience – Transportation, Distribution and Logistics

**Abbreviated Name:** WORK EXPER TRANS

**Credits:** 1

**Prerequisite:** Completion of Level 2 course in the qualifying program of study

**CTSO:** SkillsUSA

**Course Description**

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth CTE work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

**Course Information**

**Course Title:** Industry-Recognized Credential – Aviation Technology

**Abbreviated Name:** AVI MAINT TECH

**Credits:** 1

**Prerequisite:** Completion of Aviation Technology Program of Study

**CTSO:** SkillsUSA

**Course Description**

This course is offered to students who have achieved all content standards in a program of study and desire to pursue an Industry-Recognized Credential that aligns with the standards and skills associated with the Aviation Technology Program of Study. This course is designed to expand the students' opportunities to pursue certification aligned with employment standards in the industry aligned with this program of study. The supervising teacher will provide instruction aligned with the certification requirements, monitor progress toward certification, and provide the students with appropriate testing or certification opportunities associated with the intended Industry-Recognized Credential that is the subject of the course. This course may be repeated for additional instruction and credit.
