

CITIZENSHIP GUIDELINES

In Nevada, citizenship should reflect the student's ability to demonstrate civic knowledge by fulfilling their civic and social responsibilities, through action to positively impact the well-being of the communities to which they belong.

A criteria for the Seal of Civics is earning satisfactory recommendations in citizenship and community. The satisfactory marks are evaluated using the citizenship rubric from the Nevada Department of Education. Students have a few options to complete this criteria point.

1. Students must attain four letters of recommendation from four different teachers in three different years of high school.
 2. Students must earn an 3.0 or satisfactory or above in a citizenship score in four different semesters in high school.
