

ESEA Points of Interest

ESEA's position has always been that AB469's original intent regarding the Local School Precincts/Principals "selection authority" was for the budgeting in their schools. There is legislative history that corroborates this. Please see the attached excerpts from the minutes of the June 16, 2016 Interim Advisory Committee meeting and Chair Roberson's statement.

The legislative history also shows that AB469 was not intended to affect collective bargaining. Again, please see the attached excerpts from the minutes of July 1, 2016 Interim Advisory Committee meeting and Chair Roberson's statement.

Jan Giles
ESEA President
