2018-2019 SY Allocations for Participating Schools

The public school district is required to contact all non-profit private schools within their district in an effort to consult and determine if the private school would like to participate in equitable services. Once a private school agrees to participate, the school district collects information on eligible students to determine the amount of funds available. The table below includes the amount of equitable services available for each district with participating private schools. The table only includes Title I, Part A and Title II, Part A because no private schools chose to participate in the other remaining federal programs.
