# ADVISORY COUNCIL ON FAMILY ENGAGEMENT

## Advisory Council on Family Engagement & Nevada Department of Education Office of Family Engagement

More than 30 years of research indicates that family engagement is key to student achievement, which is the primary goal of the Legislature, the Department of Education, and the 17 school districts. The Advisory Council has been established to build the scaffolding necessary to unify various federal and state requirements for family engagement implementation, assessment, and accountability. (NRS 385.600)

Standards for family engagement were developed based on decades of research. Nevada’s state and district policies are based on these six standards. The Advisory Council continues to build the frame

work for family engagement based on these six standards.

The Advisory Council will provide researched and effective family engagement practices to schools and districts. Current knowledge and research on family engagement will be shared through a data base of resources to help inform school practices.
