EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: §§ 1-4, NRS 391.019.

A REGULATION relating to education; authorizing the Superintendent of Public Instruction to issue an endorsement in certain recognized fields of specialization or areas of concentration for middle school or junior high school education or secondary education in certain circumstances; revising requirements for obtaining certain endorsements; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel. Those regulations must require an applicant for a license to teach middle school or junior high school education or secondary education to demonstrate proficiency in a field of specialization or area of concentration by successfully completing course work prescribed by the Department of Education or completing a subject matter competency examination prescribed by the Department with a satisfactory score. (NRS 391.019)

**Section 1** of this regulation authorizes the Superintendent of Public Instruction to issue an endorsement in certain recognized fields of specialization or areas of concentration for middle school or junior high school education or secondary education to a person who: (1) holds a valid early childhood education, elementary education, middle school education, junior high school education, secondary education, special or special education teaching license; and (2) has passed, at the level of competence specified by the Commission, a competency examination approved by the Commission on the subject matter of the field of specialization or area of concentration.

In addition to other requirements, existing regulations require an applicant for a license to teach in middle school or junior high school to either complete 24 semester credits in a major field of endorsement or area of concentration or pass a competency examination approved by the Department of Education on the subject matter of the field of specialization or area of concentration. (NAC 391.111) **Section 2** of this regulation: (1) instead requires such an applicant to satisfy both requirements; and (2) requires the Commission to approve such an examination and specify the passing score.

Existing regulations authorize an applicant who: (1) has not passed a competency examination to obtain an endorsement for mathematics upon the completion of three semester credits in a course in college algebra or the concepts of calculus; and (2) holds another type of

license to teach to receive a license to teach middle school or junior high school or a secondary license without completing the requirements for such a license again. (NAC 391.111, 391.120) **Sections 2 and 3** of this regulation eliminate these provisions.

Existing regulations require an applicant for a secondary license with an endorsement in career and technical education to: (1) hold a bachelor's degree in education with a major or minor in career and technical education or a bachelor's degree aligned to certain subjects which can be offered as part of a career and technical education program in a school district; (2) have completed a certain amount of credit hours as prescribed; and (3) complete 1 year of certain verifiable work experience aligned to a subject area which can be offered as part of a career and technical education program. Existing regulations require an applicant for an endorsement on a secondary license in a field of specialization or area of concentration to either major or minor in a field of specialization or area of concentration or pass a competency examination approved by the Department.
