

**REVISED PROPOSED REGULATION OF THE COMMISSION ON
PROFESSIONAL STANDARDS IN EDUCATION**

LCB File No. R011-24

July 24, 2024

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§ 1-10, NRS 391.019 and 391.032.

A REGULATION relating to educational personnel; providing for the issuance of an interim endorsement in special education to applicants who meet certain criteria; eliminating provisions authorizing certain persons to teach pupils with disabilities in certain areas of specialization without obtaining an endorsement; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel. (NRS 391.019) Existing law additionally requires the Commission to adopt regulations which provide for the issuance of provisional licenses to teachers and other educational personnel before the completion of all courses of study or other requirements for a license in this State. (NRS 391.032)

Existing regulations require a person to obtain an endorsement in certain areas of specialization related to special education to be eligible to teach pupils with disabilities in those areas unless an exception applies. (NAC 391.340-391.393) Existing regulations create such an exception by authorizing certain persons to teach pupils with disabilities in an area of specialization for which an endorsement is otherwise required if the person: (1) completes a program of preparation leading to licensing in the area of specialization within 3 years after beginning to teach such pupils; and (2) satisfies certain other requirements. (NAC 391.343, 391.360, 391.363, 391.367, 391.378) **Sections 4-8** of this regulation remove this authorization. **Section 1** of this regulation instead provides for the issuance of an interim endorsement in special education to an applicant who is employed by a school district or charter school in an assignment for which an endorsement in an area of specialization related to special education is otherwise required. **Sections 3-9** of this regulation authorize the holder of an interim endorsement issued pursuant to **section 1** to teach pupils with disabilities in areas of specialization specified in **sections 3-9**.

Under **section 1**, to obtain an interim endorsement in special education, an applicant must: (1) be employed by a school district or charter school in an assignment for which an endorsement in an area of specialization related to special education is otherwise required; (2) have entered into a written agreement with the board of trustees of the school district or the

governing body of the charter school that employs the applicant to complete any remaining requirements for an endorsement in the area of specialization required for his or her assignment; and (3) meet certain other requirements. An interim endorsement in special education issued pursuant to **section 1**: (1) authorizes the holder to be employed as a teacher in a public school in an assignment for which an endorsement is otherwise required; and (2) is valid for not more than 3 years. **Section 1** also: (1) requires the board of trustees of a school district or the governing body of a charter school to provide certain notice to the Office of Educator Licensure within the Department of Education if the holder of an interim endorsement ceases to be employed in the assignment for which an interim endorsement is issued; (2) prescribes requirements related to the reinstatement of an endorsement that has become invalid; and (3) provides that an interim endorsement in special education may be converted to a renewable endorsement in an area of specialization related to special education if the holder satisfies certain requirements.

Section 10 of this regulation provides that the amendatory provisions of **sections 4-8** do not apply to a person who has been approved to teach pupils pursuant to those sections before the effective date of this regulation. **Section 10** thereby allows such a person to continue to teach pupils with disabilities in an area of specialization for which an endorsement is otherwise required without obtaining an interim endorsement.

Section 3 of this regulation makes a conforming change to update the name of the “Council for Education of the Deaf” to reflect the current name of that entity.

Sections 2 and 8 of this regulation replace the term “autism” with the term “autism spectrum disorder” to reflect the current terminology used in the Nevada Revised Statutes.

Section 1. Chapter 391 of NAC is hereby amended by adding thereto a new section to read as follows:

(a) The assignment is in the same area of specialization as the area of specialization of the interim endorsement that has become invalid.

(b) The holder resumes employment with the same school district or charter school or obtains employment with a different school district or charter school.

6. An interim endorsement in special education may be reinstated pursuant to subsection 4 not more than once.
