

Nevada Career and Technical Student Organizations (CTSOs) State Conferences

School Year 2026 - 2027

To further the development of leadership and technical skills, students have opportunities to participate in one or more Career and Technical Student Organizations (CTSOs). CTSOs develop character, citizenship, and the technical, leadership and teamwork skills essential for the workforce and further education. CTSO activities are considered a part of the instructional day when they are directly related to the competencies and objectives in the course. The seven approved CTSOs are shown below.
