Section III

Description of Use of Funds Under Part B of the Individuals with Disabilities Education Act—20 U.S.C. 1411(e)(5); 34 CFR § 300.171

States must provide the Description of Use of Funds by completing and submitting the Excel Interactive Spreadsheet with the FFY 2024 Application.

Describe how the amount retained by the State educational agency under 20 U.S.C. 1411(e)(1) will be used to meet the following activities under Part B. (20 U.S.C. 1411(e)(1)-(3), (6) and (7).) The Department annually identifies for States the maximum amounts that a State may retain under Section 1411(e)(1) and (2).¹ The dollar amounts **listed in the Excel Interactive Spreadsheet** by the State for administration and for other State activities should add up to less or equal to the dollar amount provided to the State by the Department for each of these activities.

Enter whole dollar amounts (do not enter cents) in appropriate cells on the State's Excel Interactive Worksheet. The Excel Interactive Spreadsheet must be submitted as part of the State's application.

Describe the process used to get input from LEAs regarding the distribution of amounts among activities described in the Excel Interactive Spreadsheet to meet State priorities. (20 U.S.C. 1411(e)(5)(B); 34 CFR § 300.704)

A review was conducted of the funds allocated for state activities in FFY2023. New and continuing activities for use of funds in FFY2024 were considered and discussed among LEAs. Discussions focused on needs identified through development of the state's Annual Performance Report, the state's State Systemic Improvement Plan, and through implementation of the Special Education Focused Monitoring and Program Improvement System—Nevada's initiative to ensure procedural compliance and improved results for students with disabilities. Priorities were also identified by LEAs through individual consultation and through group discussions during bi-monthly meetings of the LEA special education administrators. Recommendations from LEAs were made to adjust amounts in various categories, and these recommendations are reflected as appropriate in the state's allocations.

¹Each State may reserve for each fiscal year not more than the maximum amount the State was eligible to reserve for State administration under this section for fiscal year 2004 or \$800,000 (adjusted in accordance with 20 U.S.C. 1411(e)(1)(B)), whichever is greater; and each outlying area may reserve for each fiscal year not more than 5 percent of the amount the outlying area receives under 20 U.S.C. 1411(b)(1) for the fiscal year or \$35,000, whichever is greater.

For each fiscal year beginning with fiscal year 2005, the Secretary shall cumulatively adjust: 1) the maximum amount the State was eligible to reserve for State administration under this part for fiscal year 2004; and 2) \$800,000, by the rate of inflation as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor.

Section IV

States may meet the maintenance of State financial support (MFS) requirement in IDEA section 612(a)(18) and 34 CFR § 300.163 on either a total or per capita basis. In order to complete Section V.A. of the Application, States must provide in whole dollars the total amount of State financial support made available for special education and related services for children with disabilities during SFYs 2022 and 2023. However, if a State met the MFS requirement on a per capita basis, it **must** complete the first chart and then may also complete the second chart by providing, in whole dollars, the amount of State financial support made available for special education and related services per child with a disability during SFYs 2022 and 2023..

B. Significant Disproportionality

In accordance with 34 CFR § 300.647(b)(7), each State must report all risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress if the State uses the “reasonable progress” flexibility in 34 CFR § 300.647(d)(2), and the rationales for each, to the Department. Under § 300.647(b)(7), rationales for minimum cell sizes that exceed 10 and minimum n-sizes that exceed 30 must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disproportionality based on race and ethnicity, in the identification, placement, or discipline of children with disabilities. Additionally, pursuant to the authority established in IDEA section 618(a)(3), each applicant must also provide the number of years of data it uses in making annual determinations of significant disproportionality. Each applicant must provide this information by completing and submitting the Significant Disproportionality Reporting Form.

All States completed and submitted the **Significant Disproportionality Reporting** Form with their FFY 2020 IDEA Part B application. After the initial submission of the Form, a State will only be required to submit the Form with any future annual IDEA Part B State applications if the State modifies its risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, and rationales for each, or the number of years of data used in making annual determinations of significant disproportionality.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V.B. of the grant application, please contact your OSEP State Lead before the Application due date.

NOTICE TO ALL APPLICANTS: EQUITY FOR STUDENTS, EDUCATORS, AND OTHER PROGRAM BENEFICIARIES

Section 427 of the General Education Provisions Act (GEPA) ([20 U.S.C. 1228a](#)) applies to applicants for grant awards under this program.

ALL APPLICANTS FOR NEW GRANT AWARDS MUST INCLUDE THE FOLLOWING INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.

Please respond to the following requests for information:

- 1. Describe how your entity’s existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.**

Nevada’s commitment to ensuring equitable access to, and equitable participation in, public education (including special education) is reflected in its vision, mission, and specifically in its Statewide Plan for the Improvement of Pupils.

Nevada’s Statewide Plan for the Improvement of Pupils

The vision for the Nevada Department of Education (NDE) is: “All students are equipped and feel empowered to attain their vision of success.” The mission of the NDE is: “to improve student achievement and educator effectiveness by ensuring opportunities, facilitating learning, and promoting excellence.” Nevada law requires the State Board of Education to develop a 5-year strategic plan to improve the achievement of students enrolled in public schools across Nevada, officially referred to as a “Statewide Plan for the Improvement of Pupils” (or “STIP”). The current STIP was developed in 2020 and contains goals and strategies to support the NDE in accomplishing its mission. The complete 2020 STIP may be accessed at: https://doe.nv.gov/uploadedFiles/ndedoenvgov/content/Boards_Commissions_Councils/State_Board_of_Education/2020/July/NVSTIP.pdf

Six NDE Values are the foundation of the 2020 STIP. They include equity, success, access to quality, inclusivity, transparency, and community. Equity is the first because of its importance. There is no excellence without equality. Another core value is “inclusivity,” which expresses the NDE commitment to creating school environments where students feel safe and secure and have their identities acknowledged, valued, and celebrated.

Values

The 2020 STIP articulates a set of Values that power NDE’s mission. These Values are non-negotiable aspects of our work that are essential to the work of the NDE:

- **Equity:** The learning needs of every student are supported in an environment where all students are valued, respected, and see themselves in their curriculum and instructional materials while experiencing academic success without regard to differences in age, gender, socio-economic status, religion, race, ethnicity, sexual orientation, ability, native language, national origin, or citizenship status.

- **Access to Quality:** Students, educators, and families have opportunities to take full advantage of Nevada's education system, regardless of their zip code, district, or setting.
- **Success:** Lead the nation in the excellence and rigor of our standards, assessments, and outcomes for students and educators.
- **Inclusivity:** Learners are served in their least restrictive environment in culturally responsive and sustaining schools.
- **Community:** NDE collaborates with educators, districts, families, stakeholders, and partner agencies to lead a high-performing and responsive system of education for all Nevadans.
- **Transparency:** Districts, schools, and communities are served through efficient and effective use of public funds and fulfillment of statutory responsibilities.

Goals

NDE's Goals for 2020-2025 focus on Nevada's children and students. The word "all" is in every Goal. "All" means regardless of age, gender, socio-economic status, religion, race, ethnicity, sexual orientation, ability, native language, national origin, or citizenship status. The Goals express NDE's commitment to the well-being of every student. No matter who you are or where you go to school, NDE supports your success.

- **Goal 1:** All children, birth through third grade, have access to quality early care and education.
- **Goal 2:** All students have access to effective educators.
- **Goal 3:** All students experience continued academic growth.
- **Goal 4:** All students graduate future-ready and globally prepared for postsecondary success and civic life.
- **Goal 5:** All students have access to new and continued educational opportunities supported by funding that is administered transparently, consistently, and in accordance with legislative or grant guidelines.
- **Goal 6:** All students and adults learn and work together in safe environments where identities and relationships are valued and celebrated.

Strategies

Strategies are organized within a matrix aligning NDE's goals and values. The strategies establish an action plan to reach each goal by 2025 with targeted supports that strengthen NDE's Values.

Inputs, Outputs, and Outcomes

Each strategy sets forth inputs, outputs, and outcomes (IOOs) that provide measurable criteria for the progress and implementation of NDE's goals and strategies. Each strategy has specific IOOs which provide an action (input); an intended result (output); and measurable criteria to assess the success and progress of this action (outcomes).

Office of Inclusive Education

Within the NDE, the Office of Inclusive Education (OIE) is committed to ensuring that ALL students in Nevada are college- and career-ready upon exit from the public school system. To accomplish this, the OIE strives to build and improve on collaborative efforts with state partners and education stakeholders state-wide. It is the goal to promote educational success for Nevada's students through increased academic rigor; use of evidenced-based practices; providing sustained professional development for administrators, teachers, and staff; providing technical assistance in

data-based decision making; and building meaningful partnerships with districts, schools, and parents.

The primary means to accomplishing the commitments of the OIE is through its general supervision and administration of Part B of the Individuals with Disabilities Education Act. Its work is guided by accomplishment of the state's targets for 17 Indicators contained within the six-year State Performance Plan (SPP) for students with disabilities:

2. Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?

Based on broad stakeholder input, the 2020 STIP includes strategies for “equity” and “inclusivity” for each of the six goals. The NDE has identified barriers that may impede equitable access and participation in the state's programs and initiatives to accomplish these “equity” and “inclusivity” strategies.

Goal 1: All children, birth through third grade, have access to quality early care and education.

Equity Strategy: Increase enrollment of children from families experiencing poverty in State pre-K

Inclusivity Strategy: Increase pre-K inclusion for differently abled students

Potential Barriers:

- Subgrantees may not prioritize increasing the number of pre-K seats filled by children who are disproportionately underserved
- Policymakers may not have access to disaggregated data to assess the effectiveness of the current pre-K funding allocation model
- Policymakers may not have access to Racial Equity Impact Analyses (REIA) of early childhood program policies and provisions
- Families experiencing poverty may not know about and be able to access early childhood education programs
- Districts may not have adequate support for including and providing tiered instructions to meet the needs of diverse students
- Educators may not have sufficient knowledge and capacity to implement high-quality inclusive practices

Goal 2: All students have access to effective educators

Equity Strategy: Ensure effective educators in low-performing schools

Inclusivity Strategy: Serve students in the Least Restrictive Environment

Potential Barriers

- There are educator shortages throughout the state, including not only teachers, but also school counselors, school psychologists, school social workers, school nurses, speech-language pathologists, library-media specialists, and other professionals

- Policymakers may not have sufficient access to data to identify and recognize schools that implement equity practices proven to have a positive impact on students
- Students may not have adequate access to high-skill, high-wage, in-demand CTE programs of study in low-performing schools
- Educators may not have adequate training in IEP development that highlights the benefits of inclusive education to students, schools, and communities
- Educators may not have adequate knowledge, skills, and abilities in inclusive instructional practices that would support them in becoming more effective in teaching in the least restrictive environment

Goal 3: All students experience continued academic growth

Equity Strategy: Increase access to STEM learning

Inclusivity Strategy: Increase percentage of students attending 3-, 4-, or 5-star schools

Potential Barriers

- Educators may not have necessary technical assistance and resources for implementing standards-aligned computer science (CS) education, progressing across all grade levels and for all students
- District Performance Plans and School Performance Plans may not sufficiently emphasize STEM, including computer science
- Educators may not have necessary technical assistance and other support to promote high-quality instruction in STEM and CTE programs
- Districts may not have necessary technical assistance and support to ensure effective implementation of programs and services in alignment with federal and State compliance requirements
- Sufficient collaboration may not exist to ensure that all public schools and districts meet the goals of the State Perkins Plan

Goal 4: All students graduate future-ready and globally prepared for postsecondary success

Equity Strategy: Increase participation in college-level and CTE coursework

Inclusivity Strategy: Enhance support for English Learners

Potential Barriers

- Policymakers may not have sufficient disaggregated data to identify best practices and create guidance to support an increase in underrepresented student enrollment in dual credit, concurrent employment, AP, and IB courses as well as CTE programs of study
- Sufficient collaboration may not exist with the Nevada System of Higher Education to increase opportunities for dual credit and concurrent employment in high-skill, high-demand CTE programs of study
- Districts may not have sufficient technical assistance to implement inclusion frameworks
- Educator preparation programs may not embed required English Language Acquisition and Development (ELAD) coursework

- English Learners may not receive adequate guidance and support to participate in advanced coursework (e.g., CTE, AP, IB, dual credit)

Goal 5: All students have access to new and continued educational opportunities supported by funding that is administered transparently, consistently, and in accordance with legislative or grant guidelines.

Equity Strategy: Implement pupil-centered funding.
Inclusivity Strategy: Manage funds proactively.

Potential Barriers

- State funding for education may not adequately address equity or data-driven decision making.

Goal 6: All students and adults learn and work together in safe environments where identities and relationships are valued and celebrated.

Equity Strategy: Address disproportionate discipline
Inclusivity Strategy: Improve school climate.

Potential Barriers

- Policymakers may not have adequate disaggregated data for analyzing student discipline and attendance data, and for supporting efforts to decrease disproportionate discipline practices and identify best practices for potential replication
- Districts may not have adequate guidance and resources for the implementation of Restorative Practices in schools
- Public schools and districts may not be efficiently and confidentially notified of traumatic incidents involving their students so that they may be better able to provide academic and emotional support to students
- Policymakers may not have comprehensive school climate data that reflects multiple perspectives and supports responses with evidence-based practices selected based on actual needs
- Educators may not have access to a continuum of resources that build cultural competencies for working with Native American Indian students
- Non-instructional personnel may not have sufficient awareness of Multi-Tiered System of Supports (MTSS) and social, emotional, and academic development (SEAD)

3. Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?

Each of these potential barriers has been addressed with Inputs, Outputs and Outcomes in the 2020 STIP. See,

https://doe.nv.gov/uploadedFiles/ndedoenvgov/content/Boards_Commissions_Councils/State_Board_of_Education/2020/July/NVSTIP.pdf

In addition, Nevada is or will be taking the following steps to address potential barriers to accomplishing the NDE's 2020 STIP goals (which apply to all students) and the targets in the 17 Indicators contained in the SPP:

1. In 2021, the Nevada Legislature enacted statutes specifically prohibiting "discrimination based on race" as a component of state law prohibiting bullying and cyberbullying.
2. In 2019, 2021, and 2023, the Nevada Legislature enacted statutes incorporating principles of restorative justice into state laws concerning the suspension and expulsion of students. The statutes also imposed age limitations (no student under the age of 11) for suspensions and expulsions in most instances, with exceptions for specifically defined misconduct, and limited suspensions of students with disabilities to 10 days per occurrence of misconduct.
3. Nevada state law affords students who are homeschooled the same access to equitable participation in federal IDEA funds as is afforded to students who are parentally placed in private schools.
4. Nevada state regulations afford parents of students with disabilities a two-tiered due process hearing system, so that parents with limited resources may request, free of charge, a state-level review of an adverse local due process hearing decision.
5. The NDE assures that all of its communications, including print and electronic media, are compliant with ADA requirements.
6. The NDE considers cultural relevance and the ability of the intended audience to understand its public-facing documents, including an initiative just underway to provide documents on its website in English, Spanish, and Tagalog.
7. The NDE Leadership Team continues work on a statewide project to create standards for practice around personalized, competency-based learning which will focus on equity through its embrace of student diversity.
8. The NDE provides reasonable accommodations for students on statewide assessments based on disability and requires that IEP teams make these determinations.
9. The NDE supports enhanced collaboration among professionals with special education and English Learner expertise, to provide appropriate learning and assessment opportunities for students with disabilities who are also English Learners.
10. The NDE provides professional learning opportunities that emphasize culturally responsive practices, including personalized learning environments, positive approaches to discipline, welcoming school environments, and collaboration among stakeholders to support all students.
11. The NDE adheres to the requirement that schools provide a free appropriate public education (FAPE) to students who are individuals with disabilities as defined by the IDEA, and the NDE enforces these requirements through training and technical assistance, as well as monitoring and complaint resolution.
12. The Office of Inclusive Education (OIE) provides parents of students with disabilities an opportunity to obtain, free of charge, the services of an IEP facilitator (with the agreement of the LEA) to assist with IEP development.
13. Nevada maintains a broad and diverse membership on its Special Education Advisory Committee, a key stakeholder group for the work of the OIE.
14. The OIE offers training and ongoing coaching through its Project ACHIEVE to provide students with significant disabilities access to general curriculum.

15. The OIE implements federal requirements for determining significant disproportionality in identification, placement, and disciplinary removals among LEAs, and provides support and technical assistance to LEAs to reduce and eliminate disproportionality.

4. What is your timeline, including targeted milestones, for addressing these identified barriers?

The barriers are addressed with specific strategies, including inputs, outputs, and outcomes, in Nevada's 5-year 2020 STIP. The 2020 STIP is in effect through 2025, and there is a progress monitoring report issued annually. See, for example, the 2021 progress report:

<https://doe.nv.gov/uploadedFiles/ndedoenvgov/content/STIP/2021STIPAddendum.pdf>

The State Performance Plan establishes six-year targets from FFY2020 through FFY 2025, and progress is reported annually. See, for example, the FFY2020 SPP/APR:

https://doe.nv.gov/uploadedFiles/ndedoenvgov/content/Inclusive_Education/Documents/NV-B-SPPAPR-FFY20.pdf
