

Nevada Teacher Recruitment & Retention Advisory Task Force

June 6, 2020

Topic/Challenge	Root Cause(s)	Contributing Factor(s)	Recommended Solution(s) <i>(Consider the evidence: has this solution worked in other settings similar to ours?)</i>	Rationale <i>(Why do you think this solution will address the root cause?)</i>
Recruitment to the Profession				
Recruitment to Employment				
Retention				

Essential Questions:

Once you have identified solutions to address the root cause(s) of the challenge, prioritize the solutions you will recommend by considering the following questions:

- Which solutions will have the greatest positive **impact** on the affected population?
- Is the solution **feasible**? Can it be accomplished within existing budgetary and legal parameters?
- Will there be **unintended consequences** that negatively impact the affected population?
- Will the solution(s) work equally well in all **geographic locations** (urban, suburban, rural, remote)?
